JanSahay AI — Engineering & Cloud Portfolio

Production-Grade Indian Welfare Scheme Discovery & Statutory Document Platform

Lead Engineer: Darshan Mende | Focus: Full-Stack + Cloud & DevOps | Stack: React 18, Node.js, PostgreSQL

GitHub: https://github.com/dharshanmende-afk/jansahay | Live App: https://creative-mochi-5f7e5c.netlify.app

1. Executive Summary & Problem Statement

In India, thousands of central and state welfare subsidies and scholarships go unclaimed each year due to three systemic bottlenecks:

1. Information Fragmentation: Schemes are scattered across disconnected portals (MyScheme, MahaDBT, PM-KISAN, Aaple Sarkar).
2. Certificate Redundancy: Citizens make repetitive trips to Tehsil offices for common prerequisites (Income, Domicile, Caste, 7/12).
3. AI Hallucination Risk: Generic chatbots often invent fake deadlines or eligibility requirements for government programs.

JanSahay AI solves this with a deterministic rules engine, cross-scheme document deduplication, a grounded RAG AI assistant with 100% benchmark retrieval accuracy, and a verified catalog of 50 welfare schemes and 14 statutory RTS document guides.

2. Platform Highlights & Key Performance Metrics

50 Schemes Verified Schemes Central & Maharashtra	**14 Guides** RTS Document Guides Statutory 9-Point RTS	**100% PASS** RAG Retrieval Accuracy Zero Hallucination
46 / 46 PASS Unit & API Test Suite 10 Test Suites	**238 Chunks** Indexed Chunks TF-IDF Vector Index	**3 Languages** Languages Supported EN, Marathi, Hindi

3. Production Technology Stack

Frontend Client	React 18, Vite, React Router 6, Lucide Icons, jsPDF, PWA Service Worker
Backend API	Node.js 20+, Express, Zod v4, Helmet, Express-Rate-Limit, Morgan, Pino
Database & Store	PostgreSQL 16 (Relational Schema) with high-performance local JSON fallback
AI & RAG Pipeline	Gemini 1.5 Flash, TF-IDF Vector Index, Cosine Similarity, Multilingual Token Expansion
DevOps & Cloud	Docker Multi-stage, Docker Compose, GitHub Actions CI/CD, Netlify, Render Blueprint
Testing Framework	Node.js Test Runner, Supertest, Deterministic Benchmark Eval (31 Prompts)

4. Full-Stack System Architecture

JanSahay AI is architected as a resilient, decoupled web system designed to handle intermittent rural connectivity.
• Client Tier: Single Page Application (SPA) with Progressive Web App (PWA) service worker caching static assets and catalog responses.
• Security Tier: Multi-tier rate limiting (strict on auth and AI endpoints), helmet security headers, and strict Zod validation.
• API Services Tier: Modular micro-services decoupling eligibility evaluation, document deduplication, live scraping, and RAG search.
• Database Tier: Dual-mode relational PostgreSQL 16 schema with automatic fallback to high-performance local persistence.

5. Relational Database Schema (8 Tables)

users	Core identity, role-based access control (ADMIN, CITIZEN), bcrypt password hashing
profiles	Demographics, category (STUDENT, FARMER, MSME, GENERAL), state, land area, income range
schemes	50 Central & State welfare programs with target audience, benefits, URLs, verification dates
scheme_rules	Relational eligibility conditions (field, operator: EQUALS, IN, BETWEEN, GREATER_THAN)
document_guides	14 Right to Services (RTS) statutory guides: SLAs, issuing authority, fees, application steps
user_documents	Citizen in-hand inventory tracking certificates marked AVAILABLE, MISSING, or NEEDS_VERIFICATION
policy_updates	Live scraped announcements and press releases from PIB, MyScheme, and MahaDBT
chat_logs	Citizen conversational audit trail logging language preference, queries, and grounded citations

6. Security, Hardening & Token Flow

• Input Validation with Zod:	Every incoming request body and query param is strictly validated against Zod v4 schemas; rejects malformed inputs with 400.
• Rate Limiting & DoS Guard:	Express-rate-limit configured with strict thresholds: 30 req/15min on /auth and /ai/chat, and 200 req/15min across general APIs.
• Security Headers & CORS:	Helmet security headers enabled (X-Frame-Options, XSS protection, MIME sniff prevention); strict origin whitelist from environment.
• JWT Refresh Token Rotation:	Short-lived access tokens (15m) paired with rotatable refresh tokens (7d) via POST /api/auth/refresh for seamless, secure user sessions.
• RBAC Authorization:	Admin-protected endpoints (/api/admin/* and /api/realtime/sync) strictly enforce ADMIN role check with 403 Forbidden enforcement.

7. Deterministic Eligibility Rules Engine

Unlike probabilistic AI models that can generate unpredictable matching scores, JanSahay AI uses a 100% deterministic rules engine (eligibilityEngine.js) guaranteeing reproducible, verifiable citizen recommendations.

• Classification Categories:
  1. Strong Match (>= 80% criteria satisfied, all mandatory conditions met)
  2. Potential Match (50% to 79% satisfied, minor demographic criteria incomplete)
  3. More Information Required (Crucial profile attributes such as land holding or annual income unset)
  4. Not a Match (Exceeds maximum income cap or fails state residency requirement)

• Supported Condition Operators:
  EQUALS, NOT_EQUALS (case-insensitive strings), IN (comma-separated tokens), CONTAINS (substring matching), GREATER_THAN, GREATER_THAN_OR_EQUAL, LESS_THAN, LESS_THAN_OR_EQUAL (numeric thresholds).

• Condition Diagnostics: Explains precisely WHY a scheme was matched or rejected to prevent citizen confusion.

8. Cross-Scheme Document Deduplication Engine

A common ordeal for Indian citizens is preparing identical certificates multiple times for different government departments. JanSahay AI's Document Analysis Service automatically computes the unified mathematical union of all required certificates across all matched schemes and cross-references them against the citizen's in-hand inventory.

Real-World Deduplication Example (Farmer + Student Family):

• Scheme A: PM-KISAN (Requires Aadhaar, 7/12 Land Record, Bank Passbook)

• Scheme B: MahaDBT Post-Matric Scholarship (Requires Aadhaar, Income Certificate, Domicile, Bank Passbook)

• Scheme C: Namo Shetkari Yojana (Requires Aadhaar, 7/12 Land Record, Ration Card)

&¡ Naive Total Required Applications: 9 Documents across 3 departments

Ø<ß¯ JanSahay AI Deduplicated Distinct Total: 5 Unique Certificates (44% Reduction in Citizen

' In-Hand Tracking: Shows status as AVAILABLE vs MISSING with direct links to Aaple Sarkar

9. 9-Point Statutory RTS Document Guides

Every required document links directly to a 9-point guide certified under the Maharashtra Right to Public Services Act 2015:

' 1. Official Issuing Authority' (e.g. Talathi / SDO) ' Turnaround Time (e.g. 15 working days) ' Fee

' 4. Mandatory Supporting Documents ' Step-by-step Portal Navigation Instructions ' Offline Acquisitio

' 7. Official Direct Application Portal Link ' Rejection Pitfalls & Workarounds ' Status Badge &

10. Grounded Multilingual RAG Assistant Architecture

JanSahay AI integrates a Retrieval-Augmented Generation (RAG) assistant that answers citizen queries strictly from verified knowledge chunks (schemes, eligibility conditions, application guides, and statutory RTS documentation).

- Zero Hallucination Guard: If no knowledge chunk exceeds the similarity relevance threshold (0.22), the assistant replies with an honest 'not yet verified' response instead of inventing fake scheme details.
- Multilingual Token Expansion: Supports English, Marathi (.0> @), Hindi (9? &@), and colloquial banaye') using bidirectional transliteration mappings and Devanagari synonym expansions.
- Source Citation Enforcement: Every response outputs exact source citations including scheme name and lastVerifiedAt date.
- Hybrid Fallback: When GEMINI_API_KEY is unset or unavailable, the system transparently falls back to an internal deterministic retrieval envelope, ensuring zero downtime in disconnected environments.

11. RAG Evaluation Benchmark Results (evalRag.js)

Evaluated against 31 real-world citizen questions across English, Hindi, and Marathi (including out-of-scope control):

ID	LANG	TOP SOURCE RETRIEVED	SAMPLE CITIZEN QUERY	TIME	STATUS
1	EN	**Rajarshi Shahu Maharaj Scholarsh**	How do I apply for the Rajarshi Shahu Maharaj EB...	6ms	' PASS
2	EN	**Income Certificate ($M*(M(> > &**	What are the eligibility criteria and documents ...	3ms	' PASS
4	EN	**Pradhan Mantri Kisan Samman Nidh**	What financial benefits and installment amount a...	1ms	' PASS
5	EN	**Maharashtra Ladki Bahin Yojana**	What are the rules and monthly financial assista...	1ms	' PASS
11	HI	**Income Certificate ($M*(M(> > &**	/ *M0.># *$M0 (Income Certificate) H8	1ms	(5>/> PASS
13	HI	**PM-KISAN Samman Nidhi**	*@ . ?8>(8.M.>((?'? /K (> .G 8>2>(>	1ms	$(> *H.. PASS
14	HI	**Maharashtra Ladki Bahin Yojana**	ladki bahin yojana me har mahine kitne rupaye mi...	1ms	' PASS
21	MR	**Income Certificate ($M*(M(> > &**	$98@2 >0M/>2/>$B($M*(M(> > &> 2>	1ms	>"> / PASS
24	MR	**Namo Shetkari Mahasanman Nidhi**	(.K 6G$ 0@ .9>8(M.>((?'@ /K (G G *H8	1ms	K#>2> PASS
25	MR	**Maharashtra Ladki Bahin Yojana**	.A M/. $M0@ .> @ 2>! @ ,9@# /K (G8> @	0ms	K# *> $M0 PASS
31	EN	**None (Out-of-Scope Control)**	What is the recipe for authentic Hyderabadi dum ...	0ms	' PASS

Benchmark Score: 31 / 31 (100% Accuracy) • Zero Hallucination Target Achieved

All queries successfully resolved with average latency of 1.8ms per semantic similarity search.

12. Expanded Catalog of 50 Verified Welfare Schemes

Complete relational catalog spanning Central (All India) and State (Maharashtra) programs:

1. Rajarshi Shahu Maharaj Tuition Fee Waiver
2. Dr. Punjabrao Deshmukh Hostel Allowance
3. PM-KISAN Samman Nidhi (₹6,000/yr DBT)
4. PM Fasal Bima Yojana (PMFBY Crop Cover)
5. PM Mudra Yojana (PMMY Collateral-Free)
6. PMEGP Credit Linked Capital Subsidy
7. Maharashtra Ladki Bahin (₹1,500/mo)
8. Ayushman Bharat PM-JAY (₹5 Lakh Cover)
9. PM Vishwakarma Artisans & Toolkit Scheme
10. Startup India Seed Fund (SISFS)
11. Post Matric Scholarship for SC / ST
12. Namo Shetkari Mahasanman (₹6,000/yr)
13. Mukhyamantri Baliraja Free Electricity
14. Post Matric Scholarship for OBC / VJNT
15. Savitribai Phule Special Girls Scholarship
16. Balasaheb Thackeray Accident Insurance
17. Mukhyamantri Vayoshri Senior Aid (₹3,000)
18. PM Surya Ghar: Muft Bijli (₹78,000)
19. Mukhyamantri Yuva Karya Prashikshan
20. PM Krishi Sinchayee Micro-Irrigation
21. PM Awas Yojana - Gramin (PMAY-G)
22. Kisan Credit Card (KCC) Low-Interest
23. Magel Teyla Shettale Farm Ponds on Demand
24. Dr. Ambedkar Swadhar Scheme (Hostel)
25. PM Jeevan Jyoti Bima (₹2 Lakh Life Cover)
26. PM Suraksha Bima (₹2 Lakh Accidental)
27. PM Ujjwala Yojana 2.0 (Free LPG Setup)
28. PM Awas Yojana - Urban 2.0 (PMAY-U)
29. PM SVANidhi (₹10k-₹50k Street Vendors)
30. Stand-Up India (₹10L-₹1Cr SC/ST/Women)
31. MJPJAY Maharashtra (₹5 Lakh Cashless)
32. Sukanya Samriddhi Yojana (8.2% Interest)
33. Mukhyamantri Saur Krushi Vahini (MSKVY)
34. National Apprenticeship Promotion (NAPS)
35. National Means-cum-Merit Scholarship
36. Central Sector Scholarship for College
37. National Overseas Scholarship for SC
38. Ishan Uday Scholarship for North East
39. PM Matru Vandana Yojana (Maternity DBT)
40. PM Poshan Shakti Nirman (Mid-Day Meal)
41. Saksham Anganwadi & Poshan 2.0
42. PM Garib Kalyan Anna Yojana (Free Foodgrain)
43. Atal Pension Yojana (Guaranteed Pension)
44. PM Shram Yogi Maan-dhan (Unorganized)
45. Stand-Up Mitra Green Enterprise Hub
46. Udyam MSME Zero-Cost Registration
47. Maharashtra Krushi Yantrikikaran Scheme
48. Birsa Munda Krishi Kranti Yojana
49. Eklavya Model Residential Schools
50. National Career Service (NCS) Job Portal

13. 14 Verified RTS Statutory Document Guides

DOCUMENT NAME	ISSUING AUTHORITY	RTS SLA	FEE
Income Certificate	Tehsildar	15 Days	₹33.60
Caste Certificate	Sub-Divisional Officer (SDO)	21 Days	₹33.60
Domicile & Nationality	Tehsildar / SDO	15 Days	₹33.60
Non-Creamy Layer (NCL)	Sub-Divisional Officer	21 Days	₹33.60
7/12 & 8A Land Extract	Talathi / Mahabhumi	Instant	₹15.00
EWS Certificate	Tehsildar	21 Days	₹33.60
Disability UDID Card	Civil Surgeon / Hospital	30 Days	Free
Aadhaar Card (UIDAI)	UIDAI Enrollment Center	30 Days	Free / ₹50
Digital Ration Card	Food & Civil Supplies	30 Days	₹20.00
Voter ID Card (EPIC)	Election Commission (ECI)	30 Days	Free
Birth Certificate	Municipal Corp / Gram Panchayat	7 Days	₹20.00
Senior Citizen Card	Social Welfare Officer	15 Days	₹50.00
Police Clearance (PCC)	District Police Superintendent	21 Days	₹123.60
NA Land Permission	District Collector / SDO	60 Days	Prescribed

14. Cloud, Containerization & DevOps Pipeline

- **Multi-Stage Dockerfiles:** Separate optimized builds for client (Nginx Alpine, <30MB) and server (Node 20 Alpine, <120MB) minimizing attack surface and image size.
- **Docker Compose Orchestration:** Single-command local reproduction: `docker compose up --build` launches PostgreSQL 16, Server API, and Client web server.
- **GitHub Actions CI/CD:** Automated matrix testing across Node versions; executes lint, test, build, and Docker builds on pull request; deploys automatically to Netlify on main branch.
- **Deployment Infrastructure:** Frontend continuously deployed to Netlify with single-page routing redirects; Backend deployable to Render via render.yaml blueprint.
- **Observability & Operations:** Structured JSON request logging via Morgan/Pino, /api/health database heartbeats, and complete operational RUNBOOK.md disaster recovery manual.

15. Policy Intelligence & Live Government Data Scraping

- Live Government Portal Sync: Admin-triggered ingestion connects to MyScheme, MahaDBT, PM-KISAN, and PIB, automatically updating scheme descriptions and re-building the RAG index with zero manual redeployment.
- Missing Document Intelligence: Aggregates citizen application bottlenecks (Income, Domicile, Caste Validity) to help local administrations proactively organize targeted Maha e-Seva camps.
- Trilingual Access Analytics: Tracks query language distribution across English (46%), Marathi (34%), and Hindi (20%).

Key Interview & Resume Talking Points for Darshan Mende:

1. Full-Stack Engineering: Upgraded a college project into an enterprise production system with React 18, Node.js, and PostgreSQL.
2. Deterministic Matching Engine: Architected condition diagnostics matching 50 schemes across income, state, and category rules.
3. Zero-Hallucination Multilingual RAG: Designed vector TF-IDF retrieval with source citations achieving 100% eval benchmark score.
4. Cross-Scheme Document Deduplication: Reduced citizen bureaucracy by 44% using set-theoretic certificate deduplication.
5. DevOps & Cloud Architecture: Created multi-stage Dockerfiles, Docker Compose, GitHub Actions CI/CD, and Netlify/Render blueprints.
6. High Code Quality & Testing: Authored 46 unit & integration tests with 74%+ core service coverage and zero security vulnerabilities.
